2019 Lakes Congress

Working for clean and healthy lakes

learn, train & network with  NH LAKES

Welcome and enjoy the day!

Lakes & ponds are an integral part of New Hampshire's quality of life, economy, & natural heritage.

How are lakes important to you?

New Hampshire is home to some of the cleanest & healthiest lakes in the country.

But, the health & our enjoyment of NH's lakes are threatened by:

Invasive species,

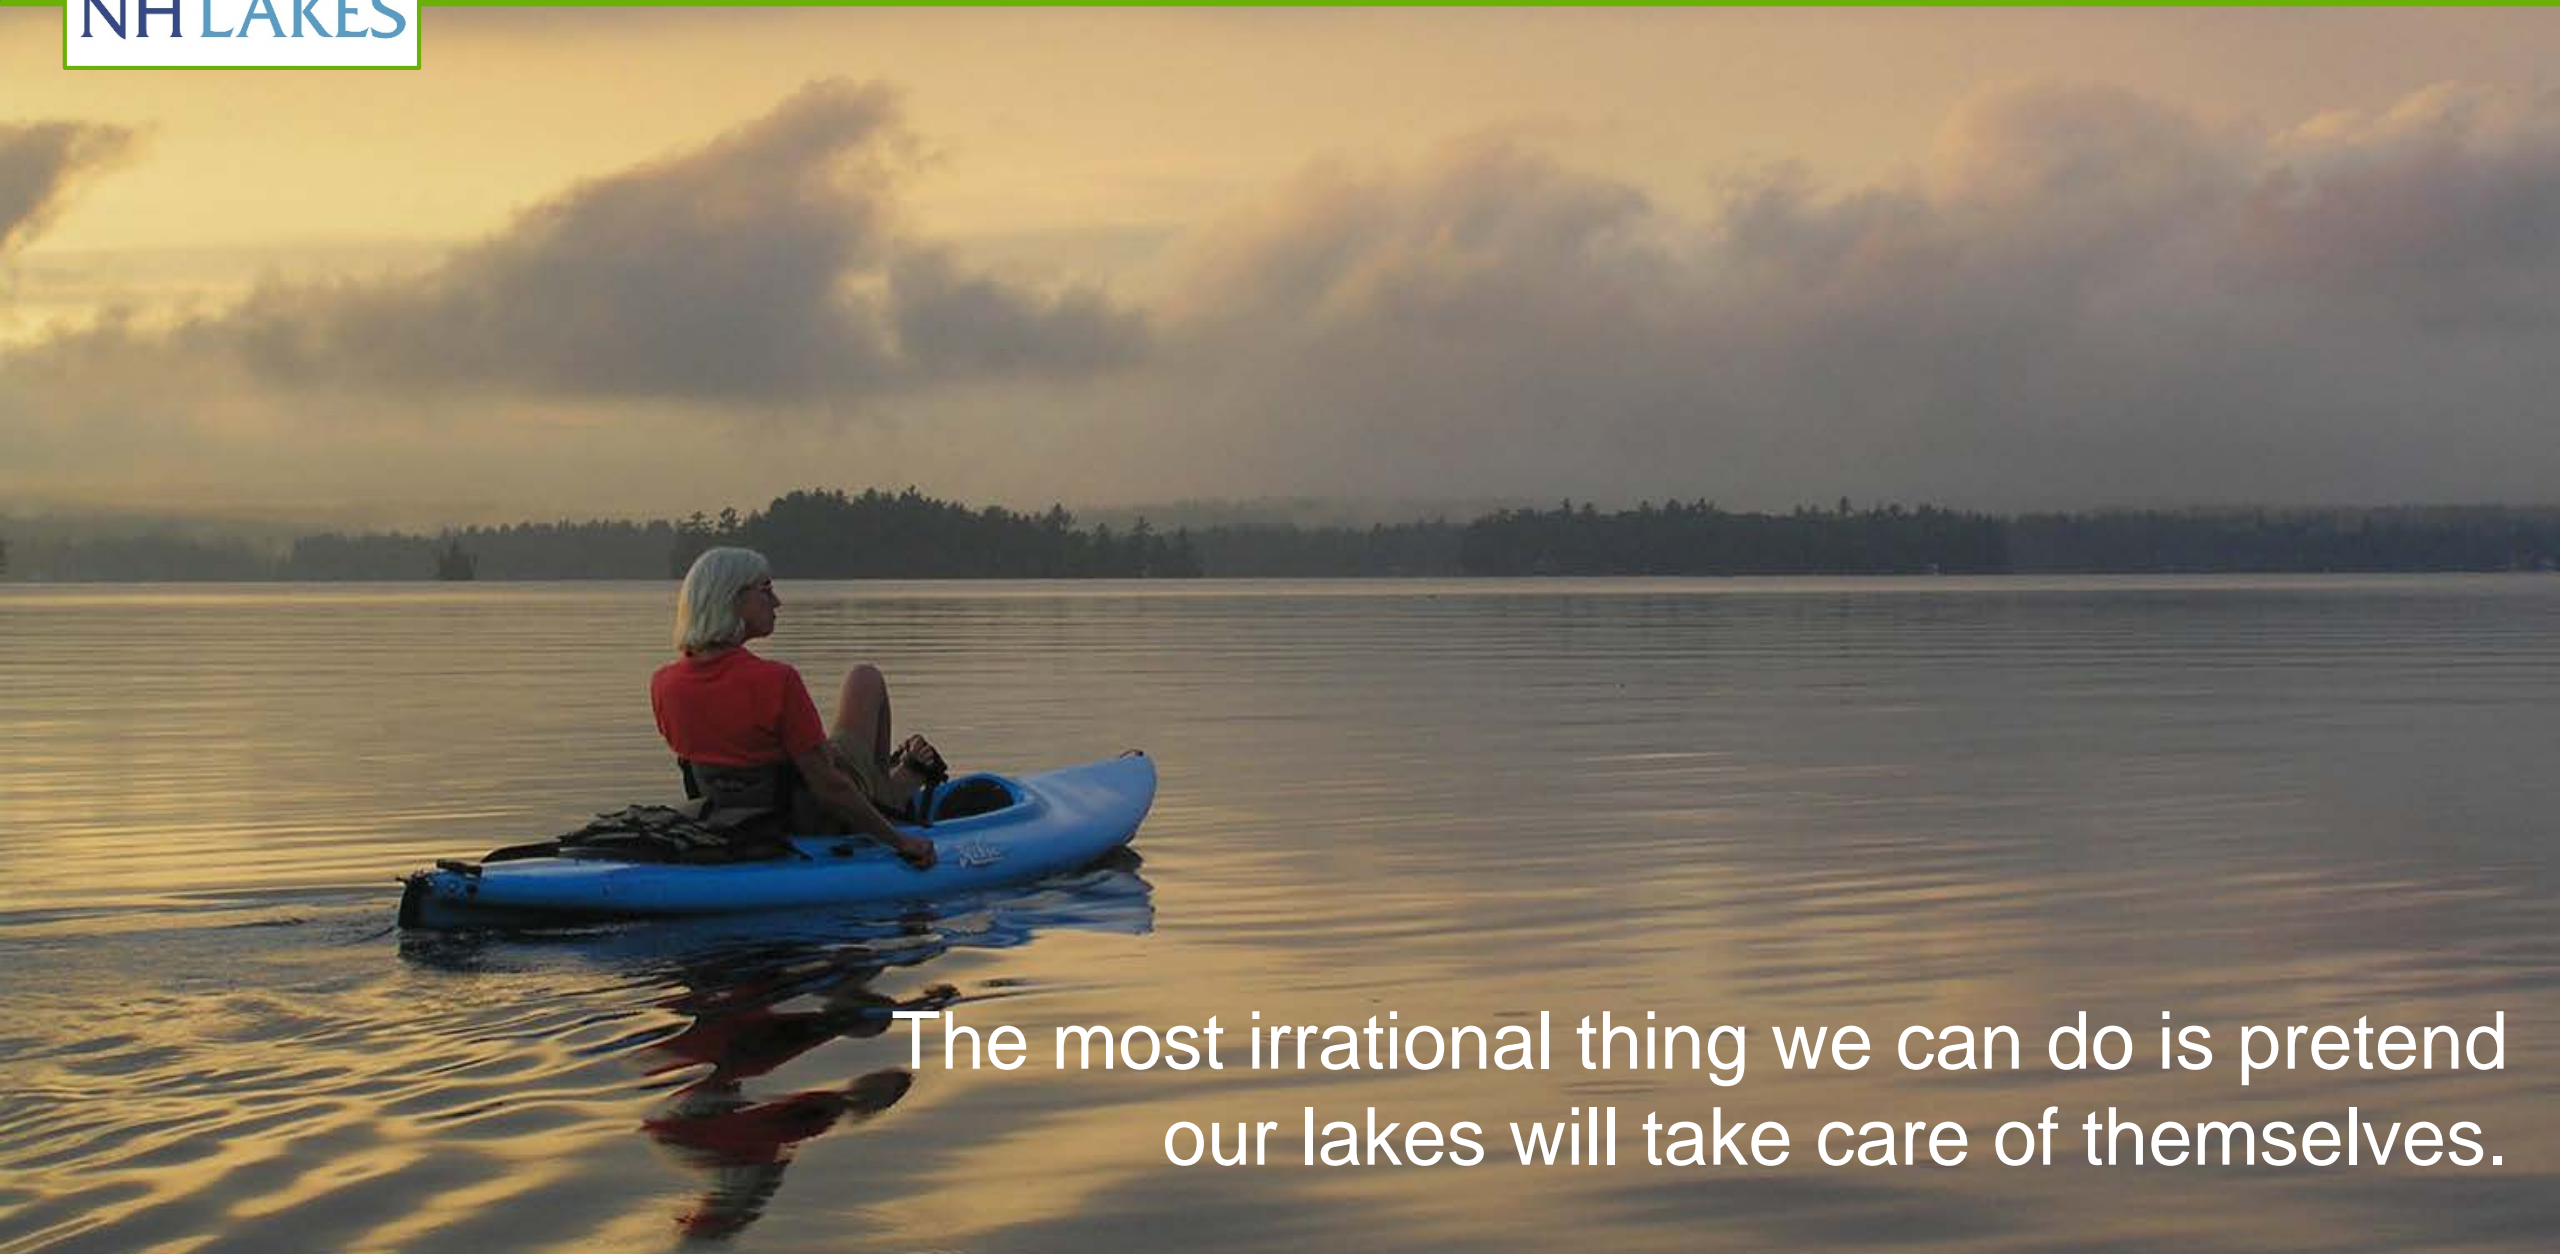

polluted runoff water,

changing weather patterns,

...and more.

The most irrational thing we can do is pretend
our lakes will take care of themselves.

Our Mission is to...

...keep NH's lakes, clean and healthy, now and in the future.
We work with partners, promote clean water policies and responsible
use and inspire the public to care for our lakes.

NH LAKES Slogan:

Working for clean and healthy lakes

NH LAKES Story:

We're a nonprofit organization that is the voice
for all of New Hampshire's 1,000 lakes.

NH LAKES Story:

We're different from a local lake association because we work for clean lakes all across the state.

NH LAKES Story:

We work with local groups, state legislators, and individuals to develop programs and policies and to inspire action to keep our lakes clean and healthy.

Programs:

Advocacy

Conservation

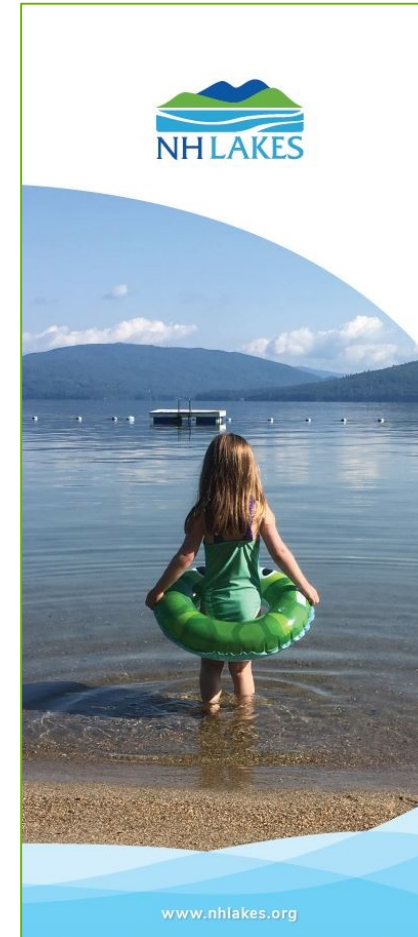

Outreach

NH LAKES is a rapidly growing community of people who recognize we all must do more!

Become a member – it's easy!

You can do your part to keep New Hampshire's
lakes clean and healthy!
