A Note From Andrea

Dear Lake Friends,

Looking at some of the factors that most affected lake health in 2023, it's hard not to feel a little hopeless. What can any of us do to prevent another warm winter or more record-setting flooding?

But, please take heart. The actions of the NH LAKES community over the past year, as in previous years, offered so many reasons for optimism. It is a testament to NH LAKES supporters, staff, volunteers, and partners that there is so much positive impact to report.

Communities at eight lakes are grateful for the Lake Hosts who prevented costly infestations of invasive species in their lake. Neighbors worked with neighbors to learn new ways to live lake-friendly. And, many people became the voice New Hampshire's lakes needed at the state house advocating for lake-friendly legislation

Our lakes are showing obvious signs of trouble—another record-setting year of cyanobacteria advisories and the alarming discovery of the invasive spiny water flea in two of our largest lakes. These warning signs have served as a wake-up call for many and have fueled a response like I have never seen before.

This lake conservation movement in New Hampshire is not new but it is growing. It may not be obvious in the report you hold in your hand. But I see it—every single day.

There is still so much work to do and it will take everyone working together to make it happen.

NH LAKES has a bold vision. Our vision is a state where all lakes are clean and healthy and caring for them is a way of living, doing business, and governing.

I am pleased to provide you with this copy of our 2023 impact report. In it, you will see how the NH LAKES community, instead of feeling hopeless, is taking bold action for the lakes we all love.

Committed to healthy lakes,

Andrea LaMoreaux, President and Policy Advocate

Lake-Friendly Living Becomes a Way of Life for Many

As our lakes show obvious signs of stress, more and more property owners are recognizing the role they play in lake health. They are learning about what they can do to help—they are becoming LakeSmart. Now in its fifth year in New Hampshire, LakeSmart is inspiring entire communities to embrace lake-friendly living as a way of life.

In 2023, the first LakeSmart Community Award was presented to the Kezar Lake Protective Association in North Sutton. The beauty of Kezar Lake and its past struggles with serious water quality problems inspired over 50% of the property owners around the lake to participate in the LakeSmart program. Together, neighbor inspiring neighbor, they are working to reduce the polluted runoff water entering their fragile lake.

Delivering the NH LAKES LakeSmart Program statewide received some help this year with two new partnerships: Newfound Lake Region Association and Squam Lakes Association. They join the Lake Winnepesaukee Association in helping NH LAKES deliver the tools and resources of the LakeSmart Lake-Friendly Living Program in their watersheds.

Cover: Mary Ropka and John Philbrick of Little Lake Sunapee proudly show off their LakeSmart Award, along with their dog, Scarlett!

Top Right: Members of the Kezar Lake Protective Association accept the first LakeSmart Community Award in New Hampshire!

Right: Chip and Gail Bull of Monomonac Lake were one of 50 property owners to receive the LakeSmart Award in 2023.

Lake Hosts SAVE the Day

Since 2002, boaters at popular boat ramps throughout the state have been greeted by Lake Hosts. And, every summer, these Lake Hosts remain vigilant as they do their part to prevent invasive hitchhiking plants and animals from making their home in lakes where they don't belong.

While 2023 will be remembered for some heroic saves at pristine lakes, it will also be remembered as the summer the invasive spiny water flea found its way to New Hampshire. This invasive species was found in Lake Winnepesaukee and Lake Winnisquam. Looking ahead, your NH LAKES Conservation Team is working with the state and other partners to develop new resources to prevent the spread of the spiny water flea to other lakes in the state.

2023 SAVES

In 2023, 33% of the boats met by a Lake Host were last used in a waterbody infested with invasive species.

Lake Hosts—our heroes! Lake Hosts saw and removed these invasive species from boats headed into uninfested lakes—saving these communities from the costly burden of managing the inevitable infestations.

A Million Thanks: Lake Advocates Make Waves for Lake Health

The NH LAKES Lake Advocates Network is a vital force in preserving New Hampshire's lakes. Composed of passionate individuals from lake-minded organizations, they stay current on the advocacy issues affecting our lakes and mobilize their communities to reach out to legislators.

Thanks to your support, the Lake Advocates Network rallied during a critical time for our lakes. Hundreds of supporters just like you advocated for a cyanobacteria mitigation fund to provide lake associations, municipalities, and water suppliers with grants to manage and prevent cyanobacteria. Your impact is evident—the motion passed, creating a \$1 million Cyanobacteria Mitigation Fund for our lakes!

Rep. Rosemarie Rung extends her heartfelt gratitude in front of the State House, thanking the incredible support that helped rally lawmakers and secure a \$1 million Cyanobacteria Mitigation Grant Fund to rejuvenate our precious lakes. Together, we're making a real difference for our environment and our communities. Thank you!

As a result of the bold actions of NH LAKES partners and supporters, NH LAKES was named the 2023 Champion in Action for Environmental Sustainability by Citizens and the New Hampshire Union Leader. This recognition gave NH LAKES a megaphone to help raise awareness of the statewide threats our lakes face.

The Cyanobacteria Plan: A Coordinated Statewide Response

Thanks to your backing of House Bill 1066 last year, the Cyanobacteria Advisory Committee was established, with NH LAKES President and Policy Advocate, Andrea LaMoreaux, among its members.

This November, guided by the committee's insights, the New Hampshire Department of Environmental Services unveiled a strategy to combat cyanobacteria blooms in our cherished lakes and ponds, including:

Reducing Polluted Runoff

Enhanced Monitoring

Education & Outreach

Drinking Water Safety

Mark Your Calendar: Learn to Protect Our Lakes on June 6

Restoring Lake Health: Your LakeSmart Successes!

Your unwavering commitment to preserving the beauty and health of our lakes is truly inspiring. Below you'll see the incredible transformations brought about by LakeSmart participants across New Hampshire. The images showcase the remarkable changes and improvements made possible through your support.

From shoreline plantings to erosion control measures, it's easy to see the positive difference we are making together in ensuring the long-term vitality of our cherished lakes. Your generosity has ignited a ripple effect of positive change, and we couldn't be more grateful for your partnership in this important endeavor. Thank you for helping us protect and enhance these natural treasures for generations to come!

Left (Before): This section of shoreline was allowing sediments and nutrients to flow into the lake.

Right (After): With a few simple plantings, these homeowners were able to protect their shoreline from erosion and their lake from excess nutrients. Win win!

Left (Before): Woody plants growing on top of septic systems can cause damage, allowing pollutants to enter the lake.

Right (After): Removing plants and tree roots protects septic systems. Healthy septic systems helps create healthy lakes!

Meet Brea Arvidson!

Last November, Brea Arvidson joined NH LAKES as the new Director of Programs. Brea's connection to the Granite State and passion for lake science will help in our response to the urgent needs and threats our lakes face. With expertise in water quality monitoring and assessing the impact of nutrient loading and invasive species, Brea has become a driving force in the field of lake science.

Please join us in welcoming Brea!

She can be reached at
603.226.0299 or
barvidson@nhlakes.org.

Steve Wingate Awarded NH LAKES' 2023

Morten Award for Lake Stewardship

NH LAKES awarded the 2023 John F. Morten Memorial Award for Exemplary Lake Stewardship to Steve Wingate, Lakes Region resident and steward of Mirror Lake in Tuftonboro, New Hampshire.

“Steve Wingate has had an enormous impact on educating lake residents about the importance of caring for the environment around us,” explained Joanne Huyler, one of 16 individuals who nominated Steve. “He has not only set the example but has actively assisted a generation of people in following in his footsteps.”

For a listing of previous Morten Award recipients, visit nhlakes.org/awards.

Our 2023 Webinar Series

In 2023, NH LAKES offered several captivating webinars that transported viewers into the heart of our lakes, offering insights into their ecology and the collaborative efforts of biologists, nonprofit organizations, and lake management professionals in their protection.

If you missed any of these presentations or want to view them again, you can access the recordings below:

[New England Ice Harvesting](#)

[Dragonflies and Damselflies and New Hampshire's Waters](#)

[Weird and Wacky - New Hampshire's Lakes and the Summer of 2023](#)

[Bringing the Lake Host Program to the Lake You Love](#)

[Otterly Amazing: Dive into the Fascinating World of Otters and Our Lakes](#)

[View all recordings on our YouTube channel here.](#)

What's Next for New Hampshire's Lakes and NH LAKES?

With your continued support, together we will achieve the following for the lakes we all love:

ADVOCACY

A statewide network of lake advocates, lake-minded municipal leaders, and state representatives adopting public policies and laws to restore and preserve the health of our lakes.

CONSERVATION

A statewide community taking action to live, recreate, and do business in a lake-friendly way to protect our lakes from pollution, polluted runoff water, and invasive plants and animals.

RESOURCES

A statewide community investing in lake restoration and protection, ensuring local lake organizations and NH LAKES are able to respond to the threats of today and of the future.

New Hampshire has been home to some of the most pristine lakes in the country—until now. Statewide, our lakes face devastating threats. They deserve bold statewide solutions. Together, let's be **BOLD**.
