

2025 IMPACT REPORT

Working together for the lakes we all love.

Hannah Coppola, NH LAKES Conservation Program Coordinator, and Lake Host Trevor Tobine stand watch at Stinson Lake. Together, people like you power the partnerships and care that keep New Hampshire's lakes clean and healthy.

A Note From Andrea

Dear Lake Friends,

This past year, my favorite thing about my job continued to be getting out to New Hampshire’s lakes and talking with the people who love them. Those conversations have given me a clear view of what’s happening statewide—and one thing stands out: more people are stepping up for the lakes they care about.

That commitment runs throughout this year’s Impact Report, and it’s happening because of you. With your support, LakeSmart communities are growing. Lake Hosts continue to protect lakes from invasive species. And, more people are advocating for their lakes in town halls and at the State House.

Together, these efforts are helping protect and restore the health of New Hampshire’s 1,000 lakes.

But, I have to be honest. I’m concerned about something. I’ve heard repeatedly over the year. More than once, someone said to me, *“Cyanobacteria didn’t seem like much of an issue this summer—I didn’t see it in the news.”*

I understand why it felt that way. While the state changed how public health warnings were communicated in 2025, the number of cyanobacteria blooms reported remained about the same. Less attention does not mean less risk.

There is still important work to do.

What gives me hope is people and the support behind them. People who choose to learn more. People who volunteer their time. People who speak up for their lakes. This growing movement exists because donors like you invest in it.

If you ever want to be in a room full of people who love the lakes the way you do, I invite you to join us at Lakes Congress in June, where shared commitment turns into coordinated action. And where the future of New Hampshire’s lakes is being shaped by people like you.

With gratitude,

Andrea LaMoreaux
President and Policy Advocate

Good Neighbors Make Waves— See How Community Protects Our Lakes

Across New Hampshire, neighbors are choosing to act together. They're learning. Taking action. Making small changes that add up to something powerful. Through the LakeSmart Program, communities of lake lovers commit to living lake-friendly to protect water quality for everyone who depends on their lake.

Becoming a LakeSmart Community requires participation. A shared boundary. A local ambassador. And a critical mass of property owners willing to say, "This matters." **When 15% of property owners earn LakeSmart Awards, a community reaches a new norm—when lake-friendly choices become visible, shared, and powerful enough to protect the whole lake.**

Because of supporters like you, communities are reaching that tipping point. Preventing erosion. Reducing polluted runoff water. Preserving clean, safe water for generations. One community. One shoreline. One lake-loving neighbor at a time.

Below is a list of communities that participated in the LakeSmart Program in 2025:

- Canaan Street Lake Association
- Crescent Lake Association (Acworth/Unity)
- Crystal Lake Improvement Association (Enfield)
- Friends of Shaws Pond
- Lake Kanasatka Watershed Association
- Lake Wicwas Association
- Lake Winnepocket Conservation Association
- Mendums Pond Stewards
- Nubanusit Lake Association
- Perkins Pond Protection Association
- Rust Pond Association
- Silver Lake Association of Madison
- Stinson Lake Association
- Thorndike Pond Conservation Association
- Wilson Pond Association

The Buckley family celebrates their LakeSmart Award on Lake Winnepocket—part of a growing community of neighbors choosing lake-friendly living.

Close Encounters of the Invasive Kind: Lake Hosts Save the Day

ZEBRA MUSSELS: STOPPED

Deb Caught a Disaster in Disguise

When Lake Host Deb Williams spotted a dried clump on a boat trailer from Lake Champlain, she knew the risk was real. Inside was a zebra mussel shell, an invasive species that spreads fast, damages boats, and permanently alters lakes. One miss is all it takes. Because of you, Deb stopped the threat before it reached Lake Winnisquam. Your generosity keeps Lake Hosts on high alert, preventing irreversible damage to the lakes people love.

HYDRILLA-LIKE INVADER: STOPPED

Zachary Saved Granite Lake from Hydrilla Look-Alike

Thanks to you, Lake Host Zachary Rioux stopped a dangerous invasive aquatic plant before it ever reached Granite Lake. The plant was related to hydrilla, one of the most aggressive invasive species threatening lakes across the country. Plants like this spread fast, smother native life, and clog boat propellers. Because of your support, Zachary caught the hitchhiker in time, preventing a costly invasion that could have changed the lake forever.

Lake Hosts: Then and Now

Boat Ramps Covered

Lake Hosts

Partner Groups

1,680 'Saves' at 61 Waterbodies Since 2002

Eleven different types of invasive species have been stopped from entering lakes since 2002.

- | | |
|------------------------|-------------------------------|
| Fanwort (816) | Water Chestnut (20) |
| Variable Milfoil (670) | Curly-Leaf Pondweed (17) |
| Eurasian Milfoil (102) | Zebra Mussel (3) |
| European Naiad (24) | Common Reed (1) |
| Mystery Snail (25) | Purple Loosestrife (1) |
| | Hydrilla/Brazilian Elodea (1) |

Eight Close Calls—Eight Lake Futures Rewritten by Lake Hosts

Lake Hosts are heroes. In 2025, they stopped eight invasive specimens hitchhiking on boats arriving at and leaving New Hampshire lakes. Eight moments when quick action prevented costly infestations and protected lakes and communities people love.

Lake Winnisquam, Laconia
(Zebra mussel)

Pawtuckaway Lake, Nottingham
(Variable Milfoil)

Granite Lake, Nelson
(Hydrilla-like plant)

Spoftord Lake, Chesterfield
(Eurasian Milfoil, Variable Milfoil, Fanwort x2)

Beaver Lake, Derry
(Chinese Mystery Snail)

FOUR SAVES TOTAL!

85,724

COURTESY BOAT INSPECTIONS DURING SUMMER OF 2025

Over 1.7 million inspections since 2002

You Helped Push 3 Lake-Friendly Bills Across the Finish Line

Your support delivered real wins for New Hampshire's lakes in 2025.

More than 1,100 bills were introduced into the New Hampshire Legislature. Dozens had the potential to affect lakes. Because lake advocates like you showed up, lawmakers paid attention to what mattered most. You helped elevate key priorities and move three lake-friendly bills into law. That is real, measurable protection for the lakes you love.

In 2025, lake champions from across New Hampshire came together to share ideas, data, and proven strategies for lake protection. This growing community of informed advocates is shaping the future of lake stewardship statewide. You are part of that momentum.

Not every critical safeguard crossed the finish line this year. But 2025 made one thing clear.

When you speak up, lakes win. With your continued leadership, we will keep advancing cleaner water, healthier shorelines, and stronger protections for generations to come.

Mark Your Calendar: Learn to Protect Our Lakes on June 5, 2026

Learn about our annual education and networking Lakes Congress conference at nhlakes.org/lakes-congress. Registration opens in April!

"I felt that there was something there for every lake or pond, be it big or small, and the session program options were excellent."

—2025 Lakes Congress attendee

PASSED!

HB 167: PFAS Ban in Ski, Boat, and Board Waxes

You helped ban the sale of boat, ski, and board waxes containing toxic PFAS. These “forever chemicals” don’t break down, can be harmful to people and animals, even in small amounts. And, they’ve already been detected in our lakes. With safer options available, this new law is a win for healthy lakes.

SB 299: Penalties for Shoreland Violations by Contractors

Before 2026, property owners could be held accountable for correcting violations of the Shoreland Protection Act committed by contractors on their property. Starting on January 1 of this year, the State can impose penalties on contractors who knowingly break the law, even on a first offense. This law protects lake health and shields property owners from unscrupulous contractors.

HB 416: Prohibiting Yard Waste Disposal in Surface Waters

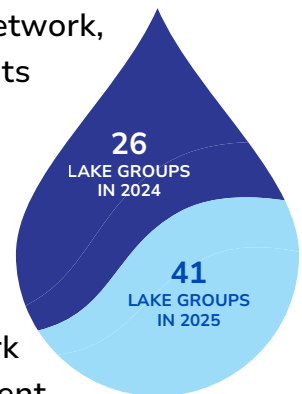

You made sure lawmakers understood that yard waste like grass clippings, pine needles, and leaves dumped into our lakes can release excess nutrients that fuel cyanobacteria blooms. This bill helps increase awareness and stops this source of lake pollution.

Lake Advocates Are Growing a Statewide Voice

Through the Lake Advocates Network, NH LAKES reaches lake residents across New Hampshire through trusted, local voices. Advocates bring calls to action on legislation back to their communities, share them with neighbors and friends, and spark a ripple of grassroots engagement.

In 2025, the network grew to include 41 lake communities, strengthening a statewide advocacy network standing up for our lakes.

Fighting Back Against Cyanobacteria: NH LAKES Awards Grants to Protect Our Waters

NH LAKES has teamed up with the New Hampshire Department of Environmental Services to help local communities take action against harmful cyanobacteria blooms in our lakes. These blooms, which can be toxic, have become more common in recent summers and pose risks to people, pets, drinking water, property values, and tourism.

With federal American Rescue Plan Act (ARPA) funds nearing their expiration, NH LAKES was selected to ensure this critical funding was put to work quickly and effectively. As a trusted, statewide organization with a track record of getting things done, NH LAKES was selected to help communities reduce nutrient pollution, one of the main causes of cyanobacteria blooms.

Through this effort, NH LAKES has awarded \$400,000 in grant funding to support lake protection projects in six communities through summer 2026. Thanks to these grants, the following groups are taking action to protect their lakes:

- Acton Wakefield Watershed Alliance
- Country Pond Lake Association
- Lake Sunapee Protective Association

Along Little Lake Sunapee, volunteers gathered for Planting Day to put care into action and help ensure a healthier shoreline for generations to come.

- The Town of Alton
- Wentworth Watershed Association
- White Oak Pond Association

Traveling to a Lake Near You: The Mobile Watercraft Cleaning Unit!

In 2025, NH LAKES continued its ongoing commitment to safeguarding our state's precious waterbodies with the renowned CD3 unit. This mobile, solar-powered, waterless cleaning unit journeyed across New Hampshire, making stops at three of the highest used public boat ramps statewide: Lake Sunapee, Ossipee Lake, and Newfound Lake.

Learn more at nhlakes.org/watercraft-cleaning-station.

Our 2025 Webinar Series

In 2025, NH LAKES offered several captivating webinars that transported viewers into the heart of our lakes, offering insights into their ecology and the collaborative efforts of biologists, nonprofit organizations, and lake management professionals in their protection.

If you missed any of these presentations or want to view them again, you can access the recordings below:

[Lakes & Legislation: Preview of the 2025 New Hampshire Legislative Session](#)

[Strange and Mysterious Lakes that Dot Our Planet](#)

[Summer Serenade: Loons on our Lakes](#)

[Lake Lifelines: The Role of New Hampshire's Lakes in Bird Migration](#)

[Watershed Management Planning for Your Lake](#)

[Cyanobacteria in New Hampshire's Lakes: New Findings and Updated Messaging from NHDES](#)

[View all recordings on our YouTube channel here.](#)

Kevin Kelly Awarded NH LAKES' 2025 Morten Award for Lake Stewardship

At the Lake Kanasatka Watershed Association's Annual Meeting on July 12, Kevin Kelly was presented with the 2025 John F. Morten Memorial Award for Exemplary Lake Stewardship by NH LAKES.

Kevin Kelly, a long-time Lake Kanasatka resident, was nominated by members of his community and officials from state agencies.

He was selected for his strong personal commitment to lake health and his broader leadership in community-based landscape protection. His work includes implementing runoff water drainage improvements and continuously seeking practical strategies to reduce pollution. His NH LAKES LakeSmart-certified property is one example of his dedication, and his efforts extend well beyond his own shoreline. Kevin also mentors other lake associations across the state, generously sharing technical expertise and strategic guidance to empower local volunteers.

For a listing of previous Morten Award recipients, visit nhlakes.org/awards.
