“Climate Impacts on Our Lakes”

Free Webinar offered by NH LAKES in January

Concord, N.H., December 21, 2021 – NH LAKES will continue to host the popular “Explore Lakes with NH LAKES” webinar series in 2022. Kick off the New Year by tuning in on Wednesday, January 5, for “Climate Impacts on Our Lakes.”

If the droughts and heavy rains in recent years have impacted you in some way—perhaps caused your well to go dry, flooded your lakefront property or dock, and/or made the lake too low for boating safely—then this webinar is for you! Tune in to hear how climate changes and the glacial geology of New Hampshire are impacting our lives—and our lakes. This webinar will be presented by Abby Thompson Fopiano, P.G., owner of Edgewater Strategies.

Throughout 2022, NH LAKES will host monthly webinars on the first Wednesday night of the month from 7:00 to 8:00 pm. All webinars are FREE, but pre-registration is required, and space is limited. To learn more and sign up, visit nhlakes.org/explore-lakes-webinars.

Established in 1992, the mission of NH LAKES, a statewide, publicly-supported nonprofit organization, is to ensure that New Hampshire’s 1,000 lakes are clean and healthy, now and in the future. NH LAKES works with partners, promotes clean water policies and responsible use, and inspires the public to care for our lakes. For more information, visit nhlakes.org, email info@nhlakes.org, or call 603.226.0299
