**NH LAKES Offering Monthly Webinar Series!**

*“Explore Lakes with NH LAKES” will run from fall 2020 through spring 2021*

Concord, N.H., September 28, 2020 – NH LAKES is pleased to announce a monthly webinar series— “Explore Lakes with NH LAKES.” This virtual learning experience will allow participants to explore lakes through the seasons from the comfort of their own home!

“It took us a pandemic to think outside the box. Since we weren't able to host our annual in-person Lakes Congress conference and networking event in late-May, we got the idea to host weekly on-line webinars throughout the spring and summer. And, wow, we're so glad we did!” said Andrea LaMoreaux, NH LAKES Vice President of Programs and Operations.

Here's what attendees had to say about these online learning and networking events:

"I'm a new Selectman in my town and wanted to learn more about lakes. I made sure to tune in each week or watch the recording—I've learned a lot."

"The webinars are so informative and friendly! The presenters have been terrific. I can't wait for the next one!"

"It's so easy to tune in—thank you!"

Based on the success of these weekly webinars, NH LAKES is kicking off the new monthly series on Wednesday, October 7, at 7:00 p.m. with “Lakes in Autumn.” Attend this session and find out how our lakes are getting ready for a long winter's nap and what lake-friendly actions you can take to make sure they wake up healthy and rejuvenated in the spring!

All these webinars are FREE, but pre-registration is required, and space is limited. Visit [nhlakes.org/explore-lakes-webinars](http://nhlakes.org/explore-lakes-webinars) to learn more and sign up!

Established in 1992, the mission of NH LAKES, a statewide, member supported nonprofit organization, is to ensure that New Hampshire's 1,000 lakes are clean and healthy, now and in the future. To achieve its mission, NH LAKES works with partners, promotes clean water policies and responsible use, and inspires the public to care for our lakes.
