**Lake-Friendly Living with Gravel Roads & Driveways**

*Free webinar open to the public presented by NH LAKES and Russ Lanoie*

Concord, N.H., June 9, 2020 – Join NH LAKES and Russ Lanoie on Thursday, June 11, at 7:00 p.m., for “Lake-Friendly Living with Gravel Roads & Driveways.” Do you own or maintain an unpaved road or driveway? If yes, whether it’s along a lake, or miles from the nearest waterbody, this webinar session is for you!

Proper maintenance of unpaved roads and driveways is one of the best ways to reduce polluted runoff water that flows into our lakes, ponds, rivers, and streams. Join Russ Lanoie, recognized as one of the most “foremost authorities on camp road maintenance,” for a lively, informative, and practical discussion of the dos and don’ts of lake-friendly living with unpaved roads and driveways. For over 50 years, Russ has been learning the secrets of dealing with too much water on roads in an environment with considerable frost, snowfall, and torrential thunderstorms. Russ has published an owner’s manual for those who live and travel on dirt and gravel roads. You can download this manual at [nhlakes.org/lake-friendly-living-webinar-series](http://nhlakes.org/lake-friendly-living-webinar-series) before the presentation and bring your questions!

This webinar is part of the LakeSmart Lake-Friendly Living webinar series. These webinars are FREE, but pre-registration is required, and space is limited. Visit [nhlakes.org/lake-friendly-living-webinar-series](http://nhlakes.org/lake-friendly-living-webinar-series) to learn more and sign up!

Established in 1992, the mission of NH LAKES, a statewide, member supported nonprofit organization, is to ensure that New Hampshire’s 1,000 lakes are clean and healthy, now and in the future. NH LAKES works with partners, promotes clean water policies and responsible use, and inspires the public to care for our lakes. For more information, visit [nhlakes.org](http://nhlakes.org), email [info@nhlakes.org](mailto:info@nhlakes.org), or call 603.226.0299
