Lake-Friendly Living with Septic Systems

Free webinar open to the public presented by NH LAKES and Russ Lanoie

Concord, N.H., June 1, 2020 – Join NH LAKES and Russ Lanoie on Thursday, June 4, at 7:00 p.m., for “Lake-Friendly Living with Septic Systems.” Whether you live along a lake or far from the nearest waterbody, if you maintain a septic system, this webinar opportunity is for you!

In New Hampshire, many homes—including most lakeside homes—are served by an on-site septic system. If you have a septic system, do you know if you are maintaining it in a lake-friendly way? Attend this session and hear from Russ Lanoie, a long-time wastewater management professional, about how these systems work and the dos and don'ts of lake-friendly living with septic systems. Russ, Owner of Rural Home Tech, has worked for several years as a licensed septic system designer and installer, concentrating on septic system locating, troubleshooting and repairs.

These webinars are part of the LakeSmart Lake-Friendly Living webinar series. The webinars are FREE, but pre-registration is required, and space is limited. Visit nhlakes.org/lake-friendly-living-webinar-series to learn more and sign up!

Established in 1992, the mission of NH LAKES, a statewide, member supported nonprofit organization, is to ensure that New Hampshire's 1,000 lakes are clean and healthy, now and in the future. NH LAKES works with partners, promotes clean water policies and responsible use, and inspires the public to care for our lakes. For more information, visit nhlakes.org, email info@nhlakes.org, or call 603.226.0299
