### **NH LAKES LakeSmart Service Provider Partner Program Continues**

*New Hampshire businesses are committing to doing work in a way that supports clean and healthy lakes.*

Concord, N.H., July 11, 2022 – If you’re a property owner that wants to help keep New Hampshire’s lakes clean and healthy, then you’ll want to hire a lake-friendly contractor for your next project. Whether you’re looking for a landscaper or a septic system designer or pumper, check out the NH LAKES team of lake-friendly living service providers!

“What happens on your property affects the lake—whether you live along the lake or miles from it,” comments Andrea LaMoreaux, NH LAKES President. “Over the years, most people I’ve met don’t really know how their actions affect the health of our lakes. I’ve also learned that most people want to know what they can do to help keep the lake they love and enjoy, clean and healthy.”

Through the NH LAKES LakeSmart Program, property owners receive tailored recommendations about adopting lake-friendly living practices in their home, on their property, and along the lake. “Often, we provide relatively simple, do-it-yourself recommendations,” LaMoreaux explains. “But, sometimes the projects can be big and complicated, or property owners just don’t have the time or interest in doing it themselves. That’s why we recommend our LakeSmart Service Provider Partners.”

LakeSmart Service Provider Partners pledge to do their work in a way that supports clean and healthy lakes and to help their clients live in a lake-friendly way. Depending on what services they provide, there are various trainings they must take to participate in LakeSmart.

NH LAKES is pleased to welcome aboard their 2022 team of LakeSmart Service Provider Partners and encourages you to reach out to them with your lake-friendly living needs! Please see below and find out more at [nhlakes.org/lakesmart](http://nhlakes.org/lakesmart).
