**NH LAKES Welcomes Two New Members to the Board of Directors**

*Breckie Hayes-Snow and Susan Reed join the NH LAKES team!*

Concord, N.H., October 6, 2020 – NH LAKES recently welcomed two new board members to the team working for clean and healthy lakes.

Breckie Hayes-Snow is the Executive Director of Legal Advice & Referral Center (LARC), a nonprofit legal aid program located in Concord, New Hampshire. She has been with LARC since 1996, having started as a supervising attorney when she left private practice. She is a graduate of Brewster Academy, Boston University, and the UNH Franklin Pierce Law School.

Breckie spent her early years on Lake Winnepesaukee and Lake Sunapee where family had summer homes before moving to Wolfeboro permanently with family. “New Hampshire’s lakes have been an important feature in my life, both as a summer person and “townie” for as long as I can remember. I feel the importance of our lakes to the state—from our economy to our quality of life—and look forward to the opportunity to invest my time and energy in their preservation.”

Susan Reed works in museum education at the USS Constitution Museum in Boston, Massachusetts. She is a lifelong summer resident of Big Island Pond in southern New Hampshire. She loves nothing more than to jump in the water for a swim, explore the swamps in a kayak looking for turtles and herons, or enjoy a boat picnic.

Susan is grateful for a family legacy of environmental engagement. Her grandfather served on the board of the New Hampshire Lakes Association, now known as NH LAKES, and she is honored to have the opportunity to continue the tradition. “The lake is so important to me and my family. I want to help care for this beautiful resource and serving on the board is an opportunity to put those values into practice.”

“Breckie and Susan (Susy) Reed come to us with inter-generational experience on lakes in New Hampshire and a lifetime of lake conservation,” commented Tom O’Brien, NH LAKES President. “We look forward very much to the lake knowledge, experience, and enthusiasm they will bring to our already exceptional Board of Directors.”

Established in 1992, the mission of NH LAKES, a statewide, member supported nonprofit organization, is to ensure that New Hampshire’s 1,000 lakes are clean and healthy, now and in the future. To achieve its mission, NH LAKES works with partners, promotes clean water policies and responsible use, and inspires the public to care for our lakes.
