

Help Put Our Lakes on a Low-Salt Diet this Winter!

Hosted by NH LAKES

Wednesday, November 3, 7:00 – 8:00 p.m.

Zoom Chat Box Discussion

- 00:22:01 Dena Hoffman: Hi I'm Dena! My favorite lake is Squam and I love listening to the loon calls at night
- 00:37:19 Steve Landry: Hi Dave - what is the highest conductivity/chloride value you have seen in NH and where did it come from?
- 00:45:04 Michele L Tremblay: Thank you, David. Excellent title, Steve.
- 00:58:02 Dan Cassidy: Can municipalities train for Green Snow Pro Certification?
- 01:04:57 WARREN MUIR: What fraction of the 400,00K tons of salt applied annually is now being applied by Green Snow Pro certified applicators?
- 01:06:03 Dan Cassidy: How do you stockpile brine?
- 01:09:27 Dena Hoffman: What do you think of using kitty litter/pet safe de-icers for homeowners? Are those safe alternatives as long as they don't have chloride?
- 01:09:31 Christine Cano: What is the "s" unit in the "micro-"s" per milliliter" measurement you speak of, please?
- 01:09:46 WARREN MUIR: Calcium chloride is sold to homeowners as a deicer. Is it a lesser concern than sodium chloride?
- 01:10:24 Dan Cassidy: Any comments re: sand/salt mix?
- 01:12:35 Christine Cano: I mis-spoke: What is the "s" unit in the "micro-"s" per centameter" measurement you speak of?
- 01:16:03 Michele L Tremblay: Thank you, David, Steve, and NH LAKES.
- 01:16:39 Dena Hoffman: Thank you everyone!
