

## The Ecology of New Hampshire's Lakes

Wednesday, August 19, 7:00 – 8:00 p.m.

Zoom Chat Box Discussion

00:53:20 Andrea LaMoreaux:yes!

00:53:58 Shirley's iPad: Hi! Shirley Green from Crystal Lake

00:54:10 Jessica: Hi Shirley!

00:54:14 Max Green: lake sunappe

01:31:48 Ann M Haralambie: I asked a question--I think it was sent to Andrea

01:33:25 Tom Ploszaj:fish spam

01:33:29 Drew's iPhone: any recent lake oddities related to covid use or overuse

01:34:11 wcranesroost: how about geese poop?

01:34:34 Linda: on the aging of the lakes - lake winni is considered a newer lake so how many years would it be to consider an older lake? is it based on depth.

01:39:30 Cathy Eby: do beavers contribute significant amounts of phosphorous and other nutrients to lakes?

01:41:06 wcranesroost: how do we monitor the in flows to our lake to preclude toxins

01:45:55 Linda: excellent job Krystal and Andrea!

01:45:59 Virginia West: How badly do power boats pollute the lakes?

01:46:25 Thomas Jacobson: Thank you both!!

01:46:29 Ann M Haralambie: are 2 stroke worse than inboard motor boats?

01:46:50 Tom Ploszaj:Thanks for the presentation., most appreciated.

01:47:40 wcranesroost: thanks

01:48:24 Shirley's iPad: Thank you! Great info!
