

What Plants are Growing in the Lake?

Hosted by NH LAKES

Wednesday, August 4, 7:00 – 8:00 p.m.

Zoom Chat Box Discussion

- 00:27:33 Ann Haralambie: purple? those look like white flowers
- 00:29:56 Erin Mastine, NH LAKES: Hi Ann, it's hard to tell from these photos but the tips of the flowers are a light purple color.
- 00:30:22 Kat Kelleher, NH LAKES: They can also look pink along the tips
- 01:07:07 Kat Kelleher, NH LAKES:

- 01:07:47 Lea Buttrick: Are you finding this is a banner year for Bladderwort? Should large floating mats be removed from a lake? When aquatic plants die and decay does this increase the total phosphorus in the lake?
- 01:10:55 Jeannie Cashin: Wonderful presentation! Thank you.
- 01:12:03 Thomas Edwards: Thanks Amy. This was a good one..
- 01:12:41 Patricia Spicer: stonewort has nodules not bladders?
- 01:13:30 Lea Buttrick: How does Bladderwort propagate?
- 01:14:04 Jeffrey Hale: Who populates the Lake Mapper map?
- 01:14:08 Patricia Spicer: Does the moss you mentioned also grow off of rocks
- 01:14:32 Kim Heath: how does current high lake level and large boat waves affect aquatic plants
- 01:16:18 Lea Buttrick: Thank you Amy!
- 01:18:00 Julia Steed Mawson: Are permits granted for cutting and removal of native plants that might have expanded their population?
- 01:19:10 Charles Gaudet: Thank you
- 01:19:20 Lea Buttrick: Thank you Erin and Kat!
